The Improved Import/Export Form
An Introduction

• To be presented as a regional document
• Designed to replace several manual entries
• Designed to improve the shortfall of the C78
• Designed to be compliant to the proposed Electronic Legislation
• Designed to be a turnaround document (i.e.) Import/Export usage
To be presented as a regional document

- Proposed to be used throughout the Caribbean
- Will aid the CSM objective
- May reduce regional documentation interpretations/inefficiencies
- Documentation uniformity throughout the region
Designed to replace several manual entries

- The following six entries will all be done on the C87:
  - The Import Entry (C78)
  - The Export Entry (C82)
  - The Transshipment Bill (C36)
  - The Request for temporary Import (C25)
  - The Deposit Entry (C24)
  - The Request for export with subsequent re-importation (C43)
Designed to improve the shortfall of the C78

- Ability to add guarantee number and amount on entry
- Will show on the face of the entry total for each duty type
- Space available for multiply licenses/permits
- Additional spaces for endorsements without defacing printed information
Designed to be compliant to the proposed Electronic Legislation

• Ability to email all types of Customs entries
• Ability for electronic communication both locally and regionally
• Compatibility to other shipping and trade systems (i.e.) e-manifest
Designed to be a turnaround document (i.e.) Import/Export usage

• Both Import and Export proceedings may be done on the C87

• Improved accountability for goods imported and exported
